REASONS FOR ALLOWANCE

1. Claims 1, 3-6, 8-15 and 17-18 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate nor render obvious to one ordinary skilled in the art a label with a particular transfective element comprising a combination of various elements as claimed, more specifically, the transparent element includes label data and the label data is visible with and without applying power to the label.

Cole ('805) discloses a transfective display device comprising a transfective element and a liquid crystal cell (transparent element). Coles discloses the device operating in two modes; in either mode, the device requires an application of a voltage source. However, the claimed invention requires the transparent element includes label data and the label data is visible with and without applying power to the label.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
